14. A quorum shall consist of fifteen members.

2. Members of the Society for Social Research up to 1935

The following list of members is compiled from various sources and may not be comprehensive. The sources used were

(1) a typed list headed 'Dues Received 1925-1926', those listed are indicated in column one of the table

(2) The *Bulletin of the Society for Social Research* of Dec 1926, those listed are noted in column 2

(3) The *Bulletin of the Society for Social Research*, Jan 1928 (col 3)

(4) A list of members from the files of the Society for Social Research, undated, but which, on the basis of the location of members was almost certainly drawn up in 1932 (col 4)

(5) A similar list, also undated, but again almost certainly from 1935 (col 5).

(6) Respondents to a questionnaire reported in the December 1934 issue of the *Bulletin*. Two hundred and thirty four letters were sent out (92) 44% returned with Society for Social Research membership dues, 12 discontinued membership, 7 returned as having been sent to the wrong address and 123 non-responses. Column 6 shows those respondents who indicated their research and whom the *Bulletin* included in its summary. On Nov 1st 1935 a further questionnaire sent to 239 members, 97 (45.6%) replied and paid, 5 to pay in Dec., 7 discontinued, 3 incorrect address, 127 non-responses. 56 of the replies indicated research. A number of letters sent abroad: 5 China, 4 Hawaii, 3 Canada, 2 Japan, 1 Brazil, Czechoslovakia, France, Mexico, Russia, Switzerland. Column 7 shows those members of the Society who responded to the questionnaire and whose work was included in the summary of the responses in the *Bulletin*. Other members mentioned in the December 1935 issue of the *Bulletin* are indicated by an M. Columns 6 and 7 thus provide an indication of the 'active' members of the Society, in the mid-1930s.

The date in brackets is the date of joining the Society. Where no date is given, the individual was a member before 1925. Where the year only is given, this is the best estimate available for year of joining. Where the month and year is given this is accurate to within a month either way.
